

The time for change has come!

Now more than ever we need new ways to do our work.

Build community with a diverse group of leaders who value:

- working in a heart-centered way
- healing from our divisions
- action for deep and lasting change
- movement-building
- collective visioning for a positive future
- relationship-building

Take the skills back to your organization
OR
Run a Circle of Change in your community
AND
Receive on-going leadership support

What better way to spend MLK weekend?
